

OCTOBER 2022

ONLY GOD CAN TRANSFORM YOUR VALLEY OF TROUBLES INTO A DOOR OF HOPE - HOSEA 2:15

Domestic violence is a crime! If you are in danger, call 911. If you are safe and would like

counsel or guidance, contact Hope's Door at 205-618-8058 or 205-677-3041.

The mission of Hope's Door is to end the cycle of domestic violence and abuse through educating, counseling, and empowering women. We are a faith based ministry serving women in Central Alabama but we receive calls from all over Alabama and the United States.

Here are some alarming statistics about abuse taken from the American Bar Association and Bureau of Justice Statistics: Abuse affects men, the elderly and children but we are a service to women so we focus on that population.

- Domestic abuse is the number one health problem for women in America and affects 1 in 3 women.
- 4 million American women are assaulted each year by their partner
- Every 9 seconds a woman is beaten or assaulted by her partner
- 3 or more women are murdered by their partners every day.
- 3.3 million children witness violence toward their mothers
- Domestic violence is the number one contributing factor to the breakdown of the family unit.

Please agree with us in prayer for God's provision for this upcoming year and for lives to be impacted eternally through our services. Consider donating and becoming a vital link to transforming lives.
